**Subject:** RE: follow up on WWW maps and figures

Hi Nuria,

David O'Donnell was the one who was putting that stuff together and he is not in today. I will forward your note to him and catch him first thing tomorrow to see if he can get you that info ASAP. In the meantime, here is a link to the MDEQ's website for the House Street Disposal Area site:

## Ex. 5 - Deliberative Process

Please let me know if you need anything else and I will see what I can do.

**Subject:** follow up on WWW maps and figures

Joe: to follow up on our conversation regarding maps, figures on Wolverine requested by Joan Tanaka during our call last Wednesday.

We are looking to understand what is known about the nature and extent of the PFAS plume -

Any already made document you can provided (ASAP) will be greatly appreciated. We need to draft documents by COB tomorrow.

We are looking for maps and summaries with figures like: # residential wells sampled, residential wells above standards –

How they are being address - including filters provided Point of Use and Point of Entry.

What do we know about other landfills and dumps... we understand that a lot of the areas are just areas of concern and are not necessarily

WWW dump sites.

Thanks!
